regulation ⚠

## ANÆ tree grate model Dendre

tree grate height: 4cm

Installation and maintenance may be only performed with original components.

The national and international rules must be used. ANÆ Streetfurniture is not responsible for damage caused by improper use. Installation has to be done by qualified personnel.

Tree grates may only be used for prescribed purpose.

Vehicle pressure may not be applied to the treegrates before completion of assembly protocol.

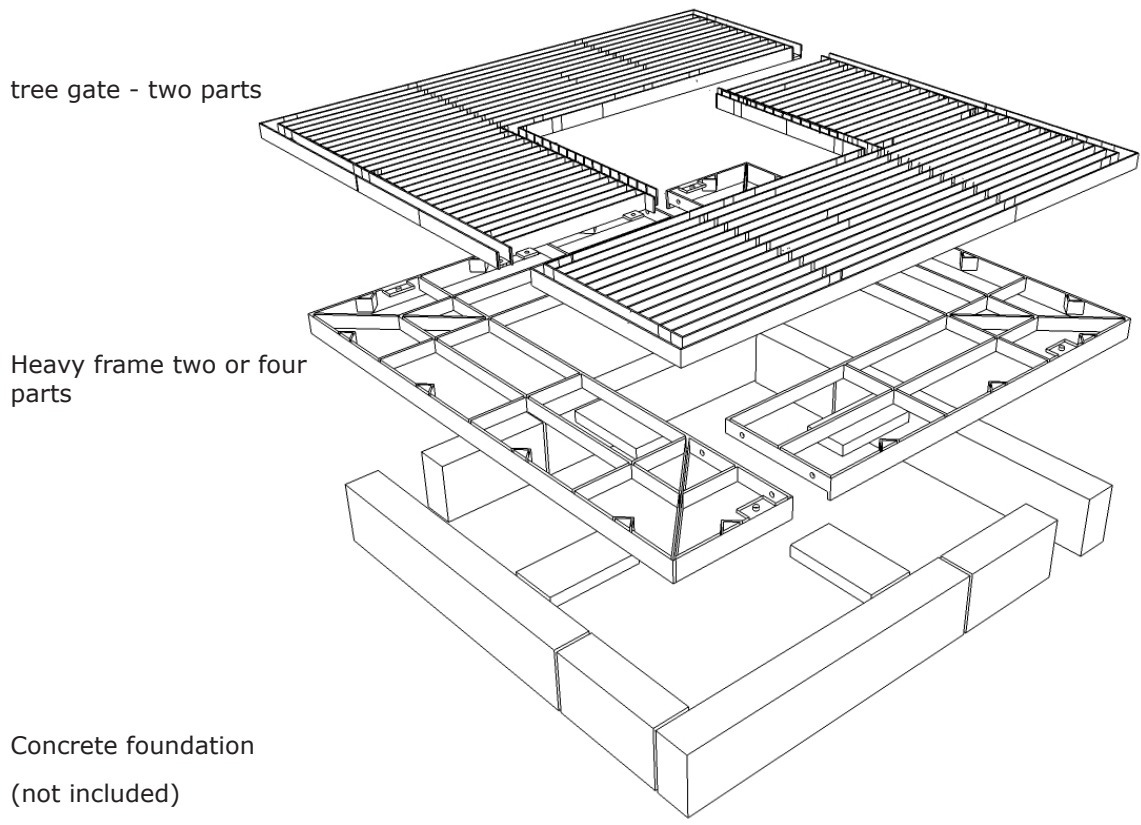

When, using M12 sets, the surface of the grates is not level across the segments after placement M10 sets need to be applied. ANÆ can supply these sets.

The images in this document are indicative for the model. Some discrepancies between image and product may occur with different model and sizes.

**Attention:**

With grates larger than 2 meters support tiles need to be applied around the opening in the grate.  
 Only by properly installing the system, a traffic class B for cars according to NEN-EN 1991-2: 2003 has been achieved.
